GOVERNMENT OF UTTAR PRADESH, LUCKNOW

(Hybrid Mode)

Date: 20-21 March, 2024

Venue:

Faculty of Education, Faridipur Campus,
KNIPSS, Sultanpur

About The Seminar

The Sustainable Development Goals (SDGs) also known as the Global goals were adopted by the United Nations in 2015 as universal call to action to end poverty, protect the planet and ensure that by 2030 all people enjoy peace and prosperity. Each goal matters on its own they all interconnected, incorporating social economic and environmental sustainability.

Education for sustainable development (ESD) is especially recognised in the SDGs. It is essential to emphasize ESDs importance for all the other 16 SDGs. With its overall aim to develop cross-cutting sustainability, competencies in learners, ESD is an essential contribution to all efforts to achieve the SDGs. This would enable individuals to contribute to sustainable development by promoting societal, economic and political change as well as by transforming their own behaviour.

The role of teacher is very important to build the nation, they play a crucial role in forming, changing and establishing attitude and values. Professionals in Higher Education can play one of the most decisive roles through innovative programs by finding ways to integrate interdisciplinary and system approach in their higher level courses. Through Eco-club, project work, environmental labs, quiz, debate etc. In this way the new generation can imbibe and spread to families and community and prepare, leading to reduced vulnerability and possible reduction in impact of the disaster on lives, livelihood and property and can contribute in nation building.

In this proposed seminar an effort will be made to think and analyze the role of teacher education for achieving the goals of sustainable development. This seminar will focus on the changing scenario of education and how the education can help for sustainable development. Education is an important tool in creating the culture of prevention and preparedness.

Sub Themes

1. Curriculum Integration: Embedding Sustainable Development Principles in Teacher Education Programs
2. Teacher Training and Capacity Building for Sustainable Development Goals (SDGs)
3. Promoting Environmental Literacy Through Teacher Education Initiatives
4. Empowering Educators as Agents of Change: Strategies for Sustainable Development
5. Community Engagement and Partnership in Sustainable Education: The Role of Teacher Training
6. Addressing Global Challenges: Cross-cultural Perspectives in Teacher Education for Sustainability
7. Assessment and Evaluation in Sustainable Development Education: Approaches for Teacher Preparation Programs

About The Institute

The growth of the Institute with leaps and bound in four decades period provided the way to rise as a multi faculty Institution with Commerce, Arts , Science, Law and Education faculties at undergraduate level and by the end of decade the Institution had post graduate programs in 8 subjects representing the aforesaid faculties. In the advent of having a full fledged faculty of Engineering and Technology in the year 1976, the needful initiatives were taken by the Trust and as a result of consistent efforts. It was established in 1980 as a fully financed institution by government of Uttar Pradesh which is presently being looked after by a separate management committee. As a result of this development the original name as Kamla Nehru Institute of Science and Technology has also been rechristened as Kamla Nehru Institute of Physical and Social Sciences. In the year 2004 a full fledged campus on 75 acre land which falls in boundary of village Faridipur at a distance of four kilometer from the main campus, has been established under the dynamic leadership of Shri Vinod Singh, the son and successor of the founder Late Sri. K.N. Singh to cope up the demand from a large number of students in professional and technical subjects. The new campus has got five faculties viz. a college of Pharmacy, Management Studies, Education, Agriculture, Engineering and Nursing. The new campus has got distinction bestowed with unique natural and pollution free peaceful environment on the state highway Ayodhya-Prayagraj bypass which also connects Lucknow, Varanasi, Prayagraj & upto extreme east of .U.P. Institute was evaluated as grade **A** by **NAAC** in **may 2019**. From Academic Session 2023-+24 it is functioning as an **autonomous institute**.
